SUBJECT INDEX

- 5'-nucleotidase in cattle, sheep and horses, Further studies on the diagnostic value of γ -glutamyl transpeptidase and 354
- Abomasal activity, Effects of hypocalcaemia on 264
- ADCC and complement-dependent lysis as immune mechanisms against EHV-1 infection in the horse 295
- Adenovirus-2 from the faeces of dogs with enteric disease and its unambiguous typing by restriction endonuclease mapping, Isolation of canine 9
- Adipose tissue, Effects of pregnancy and lactation on the measurement of bovine 349
- Antigenic differences between stocks of *Cowdria ruminantium* 186
- Antipyrine disposition in calves, Effects of age, sex and breed on 135
- Arterial oxygen tension with change in posture in anaesthetised horses, Improvement in 255
- Atherosclerosis in goats, Experimental 383
- Athymic nude mice, The effect of tamoxifen on tumours induced by cells from a canine mammary carcinoma cell line in 76
- Aujeszky's disease (pseudorabies) virus infection of pigs by direct filter hybridisation of nasal and tonsillar specimens, Rapid detection of 303
- Babesia bovis*: studies of parameters influencing microvascular stasis of infected erythrocytes 226
- Biochemical properties and differentiation of coagulase-positive staphylococci from rooks and gulls 242
- Bovine acute phase response following turpentine injection 82
- Bromosulphthalein from plasma as a measure of hepatic function in normal horses and in horses with liver disease, Clearance of 343
- Brucella* species, Characterisation of a new phage lytic for both smooth and non-smooth 45
- Caprine pneumonias in Oman, Microbiological and serological studies on 125
- Carboxymethylcellulose, Interferon induction in piglets with polyinosinic:polycytidylic acid complexed with poly-L-lysine and 132
- Cellular analysis of immunosuppression in cattle with mucosal disease 71
- Characterisation of a new phage lytic for both smooth and non-smooth *Brucella* species 45
- Characterisation of a new serotype of *P. haemolytica* isolated in Hungary 399
- Chemotherapy of East Coast fever: parvaquone treatment of *Theileria parva parva* at intervals after infection 15
- Chlamydia psittaci*: is tonsillar tissue the portal of entry in ovine enzootic abortion? 260
- Chromosomes of gaur cross domestic cattle hybrids 251
- Clearance of bromosulphthalein from plasma as a measure of hepatic function in normal horses and in horses with liver disease 343
- Clinical pathology of experimental *Schistosoma curassoni* infections in sheep and goats 271
- Closantel against immature and mature *Fasciola hepatica* in experimentally infected rats and sheep, Flukicidal action of 229
- Clostridium perfringens* and its toxin in germ-free chickens, Influence of 68
- Clostridium perfringens* β toxin by enzyme-linked immunosorbent assay, Detection of 270
- Coagulase-positive staphylococci from rooks and gulls, Biochemical properties and differentiation of 242
- Coagulase-positive staphylococci from rooks and gulls, Phage typing 247
- Coccidiosis vaccine: selection of a second precocious line of *Eimeria maxima*, Live attenuated 25
- Colon: morphological observations after 24 and 48 hours of culture, Organ culture of the chicken 1
- Colon: physiological observations after 24 and 48 hours of culture, Organ culture of chicken 6
- Comparative study of the lipid composition of the liver and bile from broiler birds during growth and egg laying 33
- Cortisol concentrations: effect of current intensity, current duration and diazepam, Electroimmobilisation and ovine plasma 21
- Cortisol concentrations in the normal cat, Effects of low dosages of intravenous dexamethasone on serum 38
- Cowdria ruminantium*, Antigenic differences between stocks of 186
- Cystoscopy in male dogs, A percutaneous perineal approach for 380
- Delayed-type hypersensitivity skin responses associated with feline infectious peritonitis in two cats 396
- Dermatophilus congolensis* zoospores, Experimental vaccination of rats with 400
- Dermatosis, Diagnostic value of zinc concentrations in serum, leucocytes and hair of dogs with zinc-responsive 41
- Detection of *Clostridium perfringens* β toxin by enzyme-linked immunosorbent assay 270

- Detection of foot-and-mouth disease antigen in bovine epithelial samples: comparison of sites of sample collection by an enzyme-linked immunosorbent assay (ELISA) and complement fixation test 315
- Development of *Trypanosoma congolense*, *T. vivax* and *T. brucei* in the skin reaction induced in goats by infected *Glossina morsitans centralis*: a light and electron microscopical study 154
- Dexamethasone on serum cortisol concentrations in the normal cat, Effects of low dosages of intravenous 38
- Diagnostic value of zinc concentrations in serum, leucocytes and hair of dogs with zinc-responsive dermatosis 41
- Diarrhoea, Pre-weaning supplementary feed and porcine post-weaning 303
- Dictyocaulus viviparus* from cattle faeces, *Pilobolus* species and rapid translation of 178
- Dictyocaulus viviparus* third stage larvae from herbage and growth of *Pilobolus* on dung pats, Factors affecting recovery of 147
- Disposition of fenbendazole in the rabbit 215
- East Coast fever: parvaquone treatment of *Theileria parva* at intervals after infection, Chemotherapy of 15
- Effect of a respiratory gas collection mask on some measurements of cardiovascular and respiratory functions in horses exercising on a treadmill 220
- Effect of chronic experimental *Trypanosoma congolense* infection on the ovaries, pituitary, thyroid and adrenal glands in female goats 140
- Effect of exogenous ovarian steroids on the uterine luminal prostaglandins in ovariectomised mares with experimental endometritis 361
- Effect of pH changes on the killing of *Staphylococcus aureus* and other mastitis pathogens by bovine neutrophil granule extracts 324
- Effect of tamoxifen on tumours induced by cells from a canine mammary carcinoma cell line in athymic nude mice 76
- Effect of unilateral weight-bearing on pelvic limb development in broiler fowls: vascular studies 164
- Effects of age, sex and breed on antipyrine disposition in calves 135
- Effects of hypocalcaemia on abomasal activity 264
- Effects of low dosages of intravenous dexamethasone on serum cortisol concentrations in the normal cat 38
- Effects of pregnancy and lactation on the measurement of bovine adipose tissue 349
- Effects of thermal stimulation on intracellular sodium, potassium and chlorine in the sweat glands of the cow, sheep and goat 388
- EHV-1 infection in the horse, ADCC and complement-dependent lysis as immune mechanisms against 295
- Eimeria maxima*, Live attenuated coccidiosis vaccine: selection of a second precocious line of 25
- Elastase by canine serum: demonstration of an acute phase response, Inhibition of 391
- Electroimmobilisation and ovine plasma cortisol concentrations: effect of current intensity, current duration and diazepam 21
- Electrolytes and free fatty acids in milk during mammary involution in the cow 175
- Endometritis, Effect of exogenous ovarian steroids on the uterine luminal prostaglandins in ovariectomised mares with experimental 361
- Escherichia coli*, Use of a monoclonal antibody to detect the F41 fimbrial adhesin of enterotoxigenic 394
- Experimental atherosclerosis in goats 383
- Experimental vaccination of rats with *Dermatophilus congolensis* zoospores 400
- F41 fimbrial adhesin of enterotoxigenic *Escherichia coli*, Use of a monoclonal antibody to detect the 394
- Factors affecting recovery of *Dictyocaulus viviparus* third stage larvae from herbage and growth of *Pilobolus* on dung pats 147
- Fasciola hepatica* in experimentally infected rats and sheep, Flukicidal action of closantel against immature and mature 229
- Fasciola hepatica*: studies on vaccination of rats and mice with a surface antigen prepared from fluke homogenate by means of a monoclonal antibody 237
- Fenbendazole in the rabbit, Disposition of 215
- Flukicidal action of closantel against immature and mature *Fasciola hepatica* in experimentally infected rats and sheep 229
- Foot-and-mouth disease antigen in bovine epithelial samples: comparison of sites of sample collection by an enzyme-linked immunosorbent assay (ELISA) and complement fixation test, Detection of 315
- Forms of bovine pepsinogen in plasma from cattle with three different 'syndromes' of *Ostertagia ostertagi* infection 29
- Further studies on the diagnostic value of γ -glutamyl transpeptidase and 5'-nucleotidase in cattle, sheep and horses 354
- Gastroenteritis in pigs, Solid phase immune electron microscopy for diagnosis of transmissible 286
- Gaur cross domestic cattle hybrids, Chromosomes of 251
- γ -glutamyl transpeptidase and 5'-nucleotidase in cattle, sheep and horses, Further studies on the diagnostic value of 354
- Glossina morsitans centralis*: a light and electron microscopical study, Development of *Trypanosoma congolense*, *T. vivax* and *T. brucei* in the skin reaction induced in goats by infected 154
- Haematological and immunological response of untrained cattle to *Psoroptes ovis*, the sheep scab mite 197
- Haemonchus contortus* larvae in sheep: dose dependency, steroid sensitivity and persistence of the response, Immune exclusion of 320
- Hypersensitivity skin responses associated with feline infectious peritonitis in two cats, Delayed-type 396
- Hypocalcaemia on abomasal activity, Effects of 264
- Identification of *Leishmania donovani* amastigotes in canine tissue by immunoperoxidase staining 194
- Immune exclusion of *Haemonchus contortus* larvae in sheep: dose dependency, steroid sensitivity and persistence of the response 320

- Immunoglobulin and peritoneal phagocytes in the protection of rats against salmonella infection, Role of 329
- Immunoperoxidase staining, Identification of *Leishmania donovani* amastigotes in canine tissue by 194
- Immunosuppression in cattle with mucosal disease, A cellular analysis of 71
- Improvement in arterial oxygen tension with change in posture in anaesthetised horses 255
- In vitro and in vivo binding of phenylbutazone and related drugs to equine feeds and digesta 50
- Incisor periodontium, A quantitative ultrastructural study of the extracellular matrix of the sheep 190
- Influence of *Clostridium perfringens* and its toxin in germ-free chickens 68
- Influence of the autonomic nervous system in the horse urinary bladder 282
- Influence of the route of infection of *Pasteurella anatipestifer* on the clinical and immune responses of White Pekin ducks 208
- Inhibition of elastase by canine serum: demonstration of an acute phase response 391
- Interferon induction in piglets with polyinosinic:polycytidylic acid complexed with poly-L-lysine and carboxymethylcellulose 132
- Intertarsal joint in the domestic fowl, Vascular pattern of the developing 100
- Isolation of canine adenovirus-2 from the faeces of dogs with enteric disease and its unambiguous typing by restriction endonuclease mapping 9
- Isometamidium in cattle, Pharmacokinetic and histopathological investigations of 267
- Knee joint in the domestic fowl, Vascular pattern of the developing 89
- Leishmania donovani* amastigotes in canine tissue by immunoperoxidase staining, Identification of 194
- Leptospira interrogans* serovar *hardjo* isolates from cattle, Restriction endonuclease analysis of 375
- Lipid composition of the liver and bile from broiler birds during growth and egg laying, Comparative study of the 33
- Live attenuated coccidiosis vaccine: selection of a second precocious line of *Eimeria maxima* 25
- Liver disease, Clearance of bromosulphthalein from plasma as a measure of hepatic function in normal horses and in horses with 343
- Lysis as immune mechanisms against EHV-1 infection in the horse, ADCC and complement-dependent 295
- Macropus rufogriseus*, Pharmacokinetics of oxytetracycline in clinical cases in the red-necked wallaby 335
- Mammary involution in the cow, Electrolytes and free fatty acids in milk during 175
- Mastitis in the cow, Protective effect of previous intramammary infection with *Streptococcus uberis* against subsequent clinical 386
- Mastitis pathogens by bovine neutrophil granule extracts, Effect of pH changes on the killing of *Staphylococcus aureus* and other 324
- Microbiological and serological studies on caprine pneumonias in Oman 125
- Mucosal disease, A cellular analysis of immunosuppression in cattle with 71
- Observations on the development of tick-transmitted *Theileria buffeli* (syn *T. orientalis*?) in cattle 338
- Oestrus detection in dairy cows by milk temperature measurement 366
- Organ culture of chicken colon: physiological observations after 24 and 48 hours of culture 6
- Organ culture of the chicken colon: morphological observations after 24 and 48 hours of culture 1
- Ostertagia ostertagi* infection, Forms of bovine pepsinogen on plasma from cattle with three different 'syndromes' of 29
- Ovarian steroids on the uterine luminal prostaglandins in ovariectomised mares with experimental endometritis, Effect of exogenous 361
- Oxytetracycline in clinical cases in the red-necked wallaby (*Macropus rufogriseus*), Pharmacokinetics of 335
- P. haemolytica* isolated in Hungary, Characterisation of a new serotype of 399
- Parvaquine treatment of *Theileria parva parva* at intervals after infection, Chemotherapy of East Coast fever 15
- Pasteurella anatipestifer* on the clinical and immune responses of White Pekin ducks, Influence of the route of infection of 208
- Pattern of vascular canals in the bone extremities of the pelvic appendicular skeleton in broiler type fowl 112
- Pelvic limb development in broiler fowls: vascular studies, Effect of unilateral weight-bearing on 164
- Pepsinogen on plasma from cattle with three different 'syndromes' of *Ostertagia ostertagi* infection, Forms of bovine 29
- Percutaneous perineal approach for cystoscopy in male dogs 380
- Peritonitis in two cats, Delayed-type hypersensitivity skin responses associated with feline infectious 396
- Phage lytic for both smooth and non-smooth *Brucella* species, Characterisation of a new 45
- Phage typing coagulase-positive staphylococci from rooks and gulls 247
- Pharmacokinetic and histopathological investigations of isometamidium in cattle 267
- Pharmacokinetics, metabolism and excretion of phenylbutazone in cattle following intravenous, intramuscular and oral administration 57
- Pharmacokinetics of oxytetracycline in clinical cases in the red-necked wallaby (*Macropus rufogriseus*) 335
- Pharmacokinetics of sodium amoxicillin in horses 233
- Phenylbutazone and related drugs to equine feeds and digesta, In vitro and in vivo binding of 50
- Phenylbutazone in cattle following intravenous, intramuscular and oral administration, Pharmacokinetics, metabolism and excretion of 57
- Pilobolus* on dung pats, Factors affecting recovery of *Dictyocaulus viviparus* third stage larvae from herbage and growth of 147
- Pilobolus* species and rapid translation of *Dictyocaulus viviparus* from cattle faeces 178
- Plasma disposition and renal clearance of sulphadimidine and its metabolites in laying hens 202
- Polyinosinic:polycytidylic acid complexed with poly-L-lysine and carboxymethylcellulose, Interferon induction in piglets with 132

- Poly-L-lysine and carboxymethylcellulose, Interferon induction in piglets with polyinosinic:polycytidylic acid complexed with 132
- Pre-weaning supplementary feed and porcine post-weaning diarrhoea 303
- Protective effect of previous intramammary infection with *Streptococcus uberis* against subsequent clinical mastitis in the cow 386
- Pseudorabies (Aujeszky's disease) virus infection of pigs by direct filter hybridisation of nasal and tonsillar specimens, Rapid detection of 303
- Psoroptes ovis*, the sheep scab mite, Haematological and immunological response of unrestrained cattle to 197
- Quantitative ultrastructural study of the extracellular matrix of the sheep incisor periodontium 190
- Rapid detection of Aujeszky's disease (pseudorabies) virus infection of pigs by direct filter hybridisation of nasal and tonsillar specimens 303
- Respiratory gas collection mask on some measurements of cardiovascular and respiratory functions in horses exercising on a treadmill, Effect of a 220
- Restriction endonuclease analysis of *Leptospira interrogans* serovar *hardjo* isolates from cattle 375
- Restriction endonuclease mapping, Isolation of canine adenovirus-2 from the faeces of dogs with enteric disease and its unambiguous typing by 9
- Role of immunoglobulin and peritoneal phagocytes in the protection of rats against salmonella infection 329
- Salmonella infection, Role of immunoglobulin and peritoneal phagocytes in the protection of rats against 329
- Schistosoma curassoni* infections in sheep and goats, Clinical pathology of experimental 271
- Sheep scab mite, Haematological and immunological response of unrestrained cattle to *Psoroptes ovis* 197
- Skeleton in broiler type fowl, Pattern of vascular canals in the bone extremities of the pelvic appendicular 112
- Sodium amoxicillin in horses, Pharmacokinetics of 233
- Solid phase immune electron microscopy for diagnosis of transmissible gastroenteritis in pigs 286
- Staphylococcus aureus* and other mastitis pathogens by bovine neutrophil granule extracts, Effect of pH changes on the killing of 324
- Streptococcus uberis* against subsequent clinical mastitis in the cow, Protective effect of previous intramammary infection with 386
- Sulphadimidine and its metabolites in laying hens, Plasma disposition and renal clearance of 202
- Sweat glands of the cow, sheep and goat, Effects of thermal stimulation on intracellular sodium, potassium and chlorine in the 388
- Tamoxifen on tumours induced by cells from a canine mammary carcinoma cell line in athymic nude mice, The effect of 76
- Theileria buffeli* (syn *T. orientalis*?) in cattle, Observations on the development of tick-transmitted 338
- Theileria orientalis*? in cattle, Observations on the development of tick-transmitted *Theileria buffeli* 338
- Theileria parva parva* at intervals after infection, Chemotherapy of East Coast fever: parvaquone treatment of 15
- Thermal stimulation on intracellular sodium, potassium and chlorine in the sweat glands of the cow, sheep and goat, Effects of 388
- Trypanosoma brucei* in the skin reaction induced in goats by infected *Glossina morsitans centralis*: a light and electron microscopical study, Development of *Trypanosoma congolense*, *T. vivax* and 154
- Trypanosoma congolense* infection on the ovaries, pituitary, thyroid and adrenal glands in female goats, Effect of chronic experimental 140
- Trypanosoma congolense*, *T. vivax* and *T. brucei* in the skin reaction induced in goats by infected *Glossina morsitans centralis*: a light and electron microscopical study, Development of 154
- Trypanosoma vivax* and *T. brucei* in the skin reaction induced in goats by infected *Glossina morsitans centralis*: a light and electron microscopical study, Development of *Trypanosoma congolense* 154
- Turkey slaughtering procedures: time to loss of brain responsiveness after exsanguination or cardiac arrest 183
- Turpentine injection, Bovine acute phase response following 82
- Unilateral weight-bearing on pelvic limb development in broiler fowls: vascular studies, Effect of 164
- Urinary bladder, Influence of the autonomic nervous system in the horse 282
- Use of immunosorbent-purified antigens of *Fasciola hepatica* in enzyme immunoassays
- Use of a monoclonal antibody to detect the F41 fimbrial adhesin of enterotoxigenic *Escherichia coli* 394
- Vascular canals in the bone extremities of the pelvic appendicular skeleton in broiler type fowl, Pattern of 112
- Vascular pattern of the developing intertarsal joint in the domestic fowl 100
- Vascular pattern of the developing knee joint in the domestic fowl 89
- Wallaby (*Macropus rufogriseus*), Pharmacokinetics of oxytetracycline in clinical cases in the red-necked 335
- Zinc concentrations in serum, leucocytes and hair of dogs with zinc-responsive dermatosis, Diagnostic value of 41
